

Implementation of Risk management

Date: Nov 4, 2024

Foreword:

Effective risk management empowers the company to implement timely measures to mitigate risks and minimize losses, ultimately enhancing operational efficiency. This revision improves clarity and maintains a formal tone suitable for legal or regulatory contexts. To ensure the sustainable, stable, and healthy development of the company's various businesses and overall operations, we regularly analyze and evaluate business activities with higher risks within the business scope and formulate risk management policies or countermeasures to achieve sustainable operations, good corporate governance, We will fulfill our corporate social responsibility and other goals, and through relevant management strategies and countermeasures such as risk transfer, reduction, and avoidance, we will minimize possible risks and enhance positive operational opportunities.

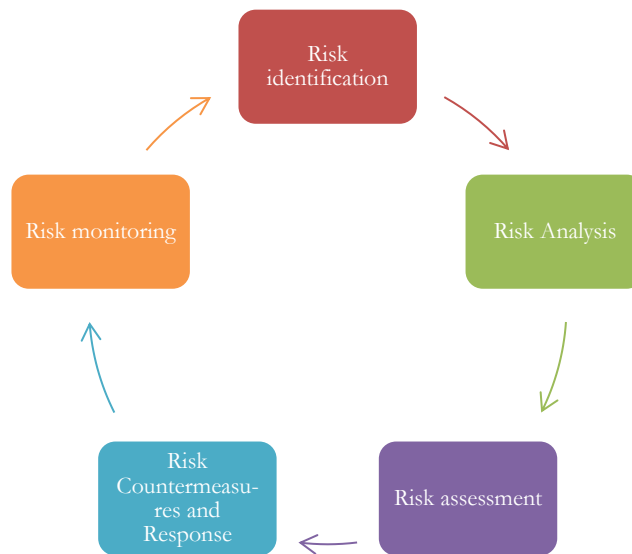

1. Risk management policy:

The Company's risk management policies and procedures were approved at the 3rd meeting of the 8th Board of Directors (2020.11.9). They are based on the Company's overall business policy take into account stakeholder concerns regarding key environmental, social, and corporate governance issues, and are combined with the Company's industrial characteristics. Operational risk, the area of risk management, summarizes the management of operations, finances, environment, hazards, and risks related to the business's relevant regulations and other international regulations and agreements, while protecting the interests of employees, shareholders, customers, and various stakeholders, increasing the company's value, and achieving the company's goals Optimization principles for resource allocation.

2. Risk management organizational structure:

In the risk management organizational structure, the board of directors is the highest decision-making unit of risk management, and the audit committee is the supervisory unit. The Corporate Governance and Sustainable Development Committee is responsible for promoting and evaluating corporate governance, operations, environment, social responsibility, and other related matters, reviewing and evaluating the risk management policies and objectives of the company's operations, and the relevant internal control procedures and scope adopted by the company. and regularly report risk management results to the Audit Committee and the Board of Directors. The audit office formulates and implements audit plans based on the company's risk management policies and assessments, provides timely improvement suggestions, and promotes the annual self-assessment of the internal control systems of each unit of the company. The management will plan and amend the risk management system take corresponding risk countermeasures in response to internal and external environments and legal adjustments and implement risk management and internal control systems.

3. Risk management operations:

To prevent losses caused by risks, to corporate governance, operations, environment, social responsibility, and other risks, the company formulates relevant strategies and response plans according to different crisis levels, handles them, and proposes improvement reviews to avoid repeating the same mistakes. Once an abnormal situation occurs, we will quickly Report to higher levels to find solutions and reduce possible impact on the company.

Implementation Status

To implement risk management, risk assessment operations are carried out regularly every year, and risk assessment operation result are regularly submitted to the audit committee and the board of directors (the previous reporting date was Nov 6, 2023). The content includes a summary of various issues faced by the company that year. Risks (such as personnel occupational safety risks, operational risks, exchange rate risks, regulatory compliance and change risks, climate change risks, etc.) and risk countermeasures, etc. will be subsequently notified to the audit office of the tracking results, and the audit office will implement risk management operations. Management audit to ensure the effective operation and implementation of the company's risk management.

The company has established a corporate governance and sustainable development committee to assist the board of directors and functional committees in promoting and evaluating corporate governance, environmental, social (ESG), and other related matters, and to report to the board of directors once a year on "implementation of ethical management" and "promoting the implementation of sustainable development Situation" and the annual report discloses the "implementation of corporate governance", and the corporate governance results are in a good status.

By this procedure, the Corporate Governance and Sustainable Development Committee will prepare a "Risk Management Assessment Questionnaire" based on the company's risk management scope, risk projects, etc., and issue it to all responsible units in October 2023. Each unit will analyze and judge the

possibility of risk events based on its actual situation. Analyze the nature and degree of impact.

1. This disclosure covers the company's ESG sustainability performance at its major locations from November 2023 to October 2024. The risk assessment boundary is mainly based on the company and is included in the scope based on the relevance to the operating industry and the degree of impact on major themes.
2. The Corporate Governance and Sustainable Development Committee conducts analysis based on the principle of materiality, communicates with internal stakeholders, assesses material ESG issues, formulates risk management policies for effective identification, measurement, evaluation, supervision, and control, and takes specific measures. action plan to reduce the impact of related risks.
3. Based on the assessed risks, formulate relevant risk management policies or countermeasures as follows:

Scope	Risk Assessment Items	probability A	Impact B	Risk value A*B	Risk ranking	Performance assessment
Corporate Governance	Ethical management and anti-corruption	1.21	2.04	2.47	R10	4.58
	Shareholders' rights and interests	1.33	2.00	2.67	R9	5.00
	Socioeconomic compliance	1.30	1.70	2.21	R12	4.70
Operations	Operational and market risks	1.81	1.89	3.43	R5	4.22
	Financial, liquidity, credit	1.50	3.67	5.50	R1	4.50
	Interest rate and exchange rate changes	2.07	1.73	3.58	R2	4.33
	Information security management measures	1.75	2.00	3.50	R4	4.53
	Intellectual property management measures	1.70	1.97	3.34	R6	4.53
Environment	Climate change and management	1.67	1.47	2.44	R11	4.47
	Wastewater and waste management	1.42	1.17	1.65	R13	4.75
Society	Occupational safety	1.42	2.00	2.83	R8	4.25
	Product safety	1.56	1.89	2.94	R7	4.44
	Supplier management	1.67	2.13	3.56	R3	4.40

Note:

Risk probability A (1-5 points), respectively 1. Most impossible 2. Not impossible 3. Possible 4. Very possible 5. Most possible
Impact degree B (1-5 points), respectively 1. Mild 2. Low 3. Moderate 4. High 5. Major

Risk value (A *B) is the product of risk probability and impact score. The classification of various risk levels based on numbers is as follows:

- (1) When the risk value ≥ 15 , classified as high risk
- (2) When $15 > \text{risk value} > 7.5$, Classified as medium risk
- (3) When the risk value ≤ 7.5 , Classified as low risk

Perform assessment (1-5 points): They are 1. Out of control 2. Slightly worse 3. Average 4. Effective 5. Excellent

Risk assessment and countermeasures for 2024

Material topics	Risk assessment items	Risk level	Risk management policy or countermeasures	Risk management execution assessment
Corporate Governance	Ethical management and anti-corruption	Low	Formulate the Corporate Governance Best Practice Principles and the Procedures for Ethical Management and Code of Ethical Conduct and establish communication channels for external stakeholders. and other mechanisms to implement them. In recent years, there have been no violations of ethical management and anti-corruption or fines from the competent authorities.	Effective
